Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 October 2008.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 5-13 is/are pending in the application.
4a) Of the above claim(s) _____ is/are withdrawn from consideration.
5) ☐ Claim(s) _____ is/are allowed.
6) ☒ Claim(s) 1, 5-8 and 10-13 is/are rejected.
7) ☒ Claim(s) 9 is/are objected to.
8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5, line 2, it appears duplicative to again define “side portions” and a “front portion” when they have already been set forth in claim 1.

In claim 13, it appear duplicative to set forth a blade including the joint member of claim 1. Note that claim 1 already sets forth a combination of wiper blade with joint member. As dependent claims must include all of the structure of the claims from which they depend, setting forth a blade with the joint member of claim 1 would essentially be claiming a blade twice.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5-8 and 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Dal Palu (GB patent 2156666).

The patent to Dal Palu discloses the invention as is claimed. Dal Palu discloses a one piece joint member (5, figs.1,6) used in rotatably joining a wiper arm (6) to a wiper blade (1, fig.1). The joint member is comprised of a fitting member (11), a case-like fixing member (11') and a flexible plate-like connecting portion (12) connecting side portions of the members together. The fitting member includes portions (13-15) for fitting into a hook portion (8) of the wiper arm (6). The fixing member supports the hook portion of the arm by sandwiching the hook portion between the fixing member and the fitting member. The fixing member includes both a side portion and a front portion (fig.6) disposed on a front and side to sandwich the hook portion of the arm. The fixing member includes a mounting hole (16) in the side portion thereof for receiving a mounting pin (4). The wiper blade includes a main body with the mounting pin (4) extending orthogonally thereto.

With respect to claim 1, the fixing member is considered as "case-like", at least as far as defined, and will cover at least a portion of the fitting member, along the entire side.

With respect to claim 6, the side portions will abut against the walls (3) of the wiper blade main body (1).

With respect to claims 7 and 8, Dal Palu discloses mounting portion (16) which rotatably fits on an orthogonal central retaining pin (4) of the wiper blade lever (1).

Allowable Subject Matter

Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 20 October 2008 have been fully considered but they are not all persuasive.

Applicant's arguments with respect to Dal Palu are noted but not persuasive. Applicant argues that the side portion of Dal Palu does not have a mounting hole. However, as set forth above, the hole (16) in the side portion of the fixing member (11') of Dal Palu is considered as a mounting hole that receives the pin (4).

Applicant's arguments with respect to the Young rejection and the double patenting rejection are noted and persuasive.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
